**Commissioner of Patents and Trademarks** 

## Office Action Summary

Application No.

Applicant(e)

09/076,404

Ecker, et al

Examiner

Maurie E. Garcia, Ph. D.

Group Art Unit 1618

| This action is FINAL.  Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.  A shortened statutory period for response to this action is set to expire   | Responsi                         | ve to communication(s) filed on  |  |
|---|----------------------------------|--|--|
| A shortened statutory period for response to this action is set to expire   |                                  |  |  |
| is longer, from the mailing date of this communication. Failure to respond within the period for response will cause the application to become abandoned. (35 U.S.C. § 133). Extensions of time may be obtained under the provisions of 37 CFR 1.136(a).  Disposition of Claims  X Claim(s) 1-20  |                                  |  |  |

--- SEE OFFICE ACTION ON THE FOLLOWING PAGES ---

Art Unit: 1618

### **DETAILED ACTION**

Please Note: In an effort to enhance communication with our customers and reduce processing time, Group 1618 is running a Fax Response Pilot for Written Restriction Requirements. A dedicated Fax machine is in place to receive your responses. The Fax number is 703-305-3704. A Fax cover sheet is attached to this Office Action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact Donald E. Adams, Ph.D., Supervisory Patent Examiner, at Donald.Adams@uspto.gov or 703-308-0570. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to Written Restrictions.

### Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10 and 17-20, drawn to a method of identifying compounds which modulate biomolecule (esp. RNA) activity, classified in class 364, subclass 578.
  - II. Claims 12 and 15, drawn to a method of using a compound to modulate the activity of a biomolecule (esp. RNA), classified in class 436, subclass 501.
  - III. Claims 11, 13, 14 and 16, drawn to compounds, classified in classes and subclasses of 520-570, 424 or 519 based on the structure of the compound.
- 2. The inventions are distinct, each from the other because of the following reasons:

Application/Control Number: 09/076,404 Page 3

Art Unit: 1618

3. Groups I and II are two different methods. The methods are different because they use different steps, require different reagents and produce different products and/or results. They therefore have different issues regarding patentability and enablement and represent patentably distinct subject matter. In the instant case, the method of modulating (Group II) requires the step of contacting the RNA or biomolecule with a compound, which is not required for the method of identifying compounds (Group I).

- 4. Groups I and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process such as by performing a directed synthesis or by synthesizing and screening a combinatorial library without first generating the library *in silico*.
- 5. Groups II and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product as claimed can be used in a materially different

Application/Control Number: 09/076,404 Page 4

Art Unit: 1618

process such as modulating the activity of a cell that employs the biomolecule in a signal transduction or protein expression cascade.

- 6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, in addition to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
- 9. Applicant is also reminded that a 1 month (not less than 30 days) shortened statutory period will be set for response when a written requirement is made without an action on the merits. This period may be extended under the provisions of 37 CFR 1.136(a). Such action will

Application/Control Number: 09/076,404

Art Unit: 1618

Page 5

not be an "action on the merits" for purposes of the second action final program, see MPEP

809.02(a).

10. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Maurie E. Garcia, Ph.D. whose telephone number is (703) 308-

0065. The examiner can normally be reached on Monday-Thursday from 8:30 to 6:00 and

alternate Fridays.

11. If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Donald E. Adams, Ph.D., can be reached on (703) 308-0570. The fax phone number

for the organization where this application or proceeding is assigned is (703) 308-4242. Any

inquiry of a general nature or relating to the status of this application or proceeding should be

directed to the receptionist whose telephone number is (703) 308-0196.
